FORD TRANSIT CUSTOM 2012

"The suspensions of recreational- and light commercial vehicles are often overloaded in regard to the specifications of the vehicle manufacturers. This over-stress has a negative influence on different security aspects: comfort, grip and road-holding. In order to improve the original suspension, Weweler-Colaert develops reinforcement kits for all kind of light commercial vehicles and trucks."

FORD TRANSIT CUSTOM 2012

The Ford Transit Custom is a front-wheel drive low-roof version of the popular van produced by Ford. It is a light commercial vehicle with a load of one ton. The Ford Transit Custom has been elected as "International Van of the Year 2012"

Width: 60 mm
